Fuser Installation Instructions

⚠ **CAUTION**

Hot surface
Do not touch.

Caution! *The fuser is very HOT after the printer has been printing. Let the printer cool down at least 10 minutes before attempting to replace it.*
To replace the fuser:

1. Turn off the printer.

   Note: If the hard disk drive is installed in your printer, press the SHUTDOWN/RESTART button for several seconds before turning the printer off.

2. Open the top cover.

3. Pull the fuser lock lever as shown to unlock the fuser.

Lock lever

4. Grasp the fuser handle and lift the fuser out of the printer. Dispose of it in accordance with local regulations.
